PROFILE

Mechanical Engineering student with strong growth mindset and quick learning ability. Profficient in Fusion 360, Adobe Lightroom, and Davinci resolve, with experience leading teams and coordinating group projects. Eager to expand technical skills and gain hands-on experience in the engineering industry.

AREAS OF EXPERTISE

Engineering Design (Fusion 360, CFD and FEA)	Project Coordination & Team Leadership	Creative Software (Lightroom, Davinci Resolve)
Technical Report Writing	Communication & Public Speaking	Rapid Skill Acquisition
Problem Solving	Mentoring & Outreach	Content Creation & Personal Branding

EDUCATION

MEng Mechanical Engineering (Automotive), University of Birmingham, 09/2022 - Present

- Member of Powerlifting, Olympic Weightlifting, and Mountaineering
- Part-time Student Ambassador and Mentor
- A2B Scholarship recipient

L3 Extended Diploma in Advanced Manufacturing Engineering, James Watt College, 09/2020 – 07/2022

- Grade Achieved: D*D*D*
 - Vice Chair of the Student Council
 - James Watt Values Award recipient
-

EXPERIENCE

Student Ambassador, University of Birmingham, 11/2022 – Present

- Representative for the university, collaborating with other ambassadors to facilitate student recruitment and outreach events.
- Ensured smooth delivery of open days and school visits by supervising and engaging students aged 11-18.
- Increased attendee satisfaction by taking initiative during unassigned tasks to resolve issues before escalated.

Inspired@Birmingham Mentor, University of Birmingham, 04/2023 – 12/2024

- Mentored 16 students, all of whom finalised a university or course choice by providing tailored guidance and feedback.
- Improved mentees' CVs and applications through structured feedback and mock reviews based on real-world standards.
- Students stayed on track by using personalised planning and check-ins, inspired by own post-16 mentorship journey.

Online Intern, Alstom UK, 08/2021 – 08/2021

- Gained foundational knowledge of the rail sector by attending 5 days of talks on signalling, services, and sustainability.

- Presented sustainable transport solutions to an audience of 20+ students and professionals, developing presentation confidence and technical communication.
- Explored engineering career paths through direct Q&As with industry professionals, broadening career awareness.

Mechanic Apprentice, Spectrum Motors, 02/2019 – 07/2019

- Learned the fundamentals of bodywork repair by restoring damaged panels using sanding and filing.
- Improved reliability and timeliness by arriving early, enhancing time management and professionalism.

INTEREST AND ACHIEVEMENTS

- Languages: Native in English and Fluent in Punjabi.
- Keen about content creating, with growing portfolio focused on life documenting.
- Active member of the university Olympic Weightlifting club; transitioned from powerlifting and achieved personal bests of 93kg (Clean & Jerk) and 66kg (Snatch).
- Committed to lifelong learning, frequently exploring new tools, creative platforms and technical challenges outside of academic work. Self-taught 5+ tools including Fusion 360, Solidworks, Adobe Lightroom, Davinci Resolve, Ansys Fluent, Abaqus, C programming.
